

## ABSTRACT

A method for inhibiting neoplastic cells and related conditions by exposing them to substituted indole derivatives.

1. The present invention relates to a method for inhibiting neoplastic cells and related conditions by exposing them to substituted indole derivatives.

2. The present invention relates to a method for inhibiting neoplastic cells and related conditions by exposing them to substituted indole derivatives.

3. The present invention relates to a method for inhibiting neoplastic cells and related conditions by exposing them to substituted indole derivatives.
